Art Unit: 2838

1. Newly submitted claims 11-17 are directed to an invention that is independent or distinct from the invention originally claimed as noted in the interview of November 12, 2003 and further agreed upon in the January 22, 2004 amendment.

Since applicant has received an examination, action on the merits, and allowance for the originally presented invention of originally filed claims 1 and 3, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 11-17 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

If applicant wishes to have the subject matter of the originally filed non-elected claims 4-10 and now corresponding newly submitted claims 11-17 considered, then applicant needs to follow the normal course of action and file a divisional application not the present RCE.

Since this application effectively has no examinable claims (claims 1-10 are cancelled and claims 11-17 are withdrawn from further consideration), it is recommended that originally allowed claims 1 and 3 be exactly "resurrected" as new claims 18 and 19 or the application abandoned.

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeffrey L. Sterrett whose telephone number is (571) 272-2085. The examiner can normally be reached on Monday-Thursday & 8:00am-5:00pm.
